LEGAL ADVERTISING.

Assessment notices	\$ 00
Annual meeting notices	5 00
Notice of appointment of administrator	5 00
For all other advertising legal rates will be charged.	

SATURDAY, SEPTEMBER, 9, 1899.

TO SAMPLE NEVADA'S SOILS.

The world moves even in Nevada. Professor N. E. Wilson of the State University went out from Reno on last Thursday evening to gather more samples of Nevada's soils, and while he is engaged in the soil-gathering business he will enter that part of the State of California lying within the basin, and will carry away from that State such of its soils as the people will permit him to take away. The professor is energetic and enthusiastic in his work. He is a first-class chemist, which gives zest to his energy and enthusiasm. He is the right man in the right place, and will be heard from in the future in the line of his profession.

He will visit Secret, Surprise, Honey Lake and other valleys in the State of California for the purpose of ascertaining if the soils in the basin continue to have the vitality over the line dividing the States that the basin soils possess in Nevada.

The writer is of the opinion that he will find the basin soils in the former State equal to most soils in Nevada. During his late tour to procure soils for analysis he visited Lovelock, in Humboldt county, where is deposited the most wonderful soil in North America. While at Lovelock he made an examination of the ground, and succeeded in procuring for analysis many samples of the soils in the valley. Some of the specimens secured are of a peculiar texture, showing much talc deposit. These samples were taken one and one-half feet to three feet below the surface. Other soils secured are alkaline, having salt chiefly as a base, which is readily removed by irrigation. The color of the different soils secured is equal to the ascertained difference of fertility of the earth from which varieties were taken, but are rich in required plant food, which is established from recent crops produced on the lands.

While engaged in looking up soils Professor Wilson concluded to visit a harvester and thresher at work in a wheat field in the valley and learn from personal observation something about the large wheat yield of the Lovelock country. When he had seen the wheat coming from the thresher at the rate of fifty bushels per acre cut and threshed he was satisfied that the natural soils of the valley were equal to the work of production represented. It has been ascertained by careful analysis that these soils give to sugar beets nineteen per cent sugar. When the wonderful productiveness of the soils of Nevada is fully ascertained and known to the world the barren soil yell will not be heard, as it will find a resting place seaward over the mountains. When Professor Wilson has made an analysis of the many specimens of soils secured by him for that purpose the JOURNAL will publish in full a result of his work.

DEGREES ARE CHEAP.

An English educator, who is touring up and down our broad land, has ventured a criticism. We have been criticised before by British and continental visitors and have grown somewhat calloused but this time the causticism burns. It is painful because true.

Ivan Spies, dean of the Royal Holloway college, London, is the author of the scoring. He says,

"The quality of the work here is far from the standard set by English educational institutions. Every State seems to hold its two or more colleges and these always crowded.

"The fault I find with you," continued the dean, "is that your degrees are too cheap; you have little or no standard. The requirements are far from strict, and in no case uniform. In some places the degrees are almost given away; in others—sold, and for money. Two of your colleges we recognize—Yale and Harvard, but beyond that we do not go."

We acknowledge the corn. A degree has become a merchantable commodity with us. Probably the parchment is never disposed of by out and out sale but degrees are frequently conferred to men who possess no intellectual attainments but who may be expected to liberally endow their pseudo alma mater.

On second thought we will not admit the charge in its entirety. American Universities are raising their standards more rapidly these recent years than their sister institutions across the seas. While British colleges cling to the dead languages and German universities dream over impracticable philosophies the American halls of learning are sweeping dry, most often eradicating out of the back doors and throwing open their windows

to admit the pure light of modern inductive reason and are making of unprofitable the dry Greek root a mere fertilizer for the growth of science.

BANKERS' CONFERENCE.

Six billion dollars are holding a balance in the Cleveland Chamber of Commerce. Incidental to the dollars are the six hundred men who control them.

The country was prepared to hear that the six billion dollars declared in favor of the gold standard and trusts.

In Philadelphia last Tuesday there were one thousand prostrations from heat. It is hard for an old-time Nebraskan to appreciate such conditions of temperature and humidity. Heat prostration in the Sagebrush State is as rare an occurrence as a Southern Pacific train on schedule time.

Great Britain may well hesitate before she "carries the war into far Africa."

BREVITIES.

Bargains in stoves at Lang & Schmitt. Ladies' wrappers 75 cents at Emrich's.

Water and sewer pipe laid cheapest by Lang & Schmitt.

For fine stationery call on the Cann Drug Co., leading druggists.

The NEVADA STATE JOURNAL is kept on sale at Miss Clara Dickinson's.

The Monarch saloon is where you can get a glass of Anheuser-Busch.

For the best of everything in wines and liquors, at lowest prices, go to Thyes.

S. Emrich will give this week 10 per cent discount on all purchases from \$1 upwards.

When you want a good meal cooked to order call at the Washoe Lunch Counter.

Miss Claire Dickinson will keep a full line of school text books at reasonable rates.

Notice the great bargains in Will G. Doane's show window. Special sale for thirty days.

Steel ranges—the Royal is the latest best and cheapest. Sold only by Lang & Schmitt.

Henry Riter has nothing but the best of liquors and cigars on sale. Call and find out for yourself.

At cost—freezers, refrigerators, mowers, garden tools and all summer goods, to clean out stock. Lang & Schmitt.

Miss Gibbs carries a complete stock of stamped goods, footing and lace linens for handkerchiefs.

For headache, dyspepsia, habitual constipation, torpid liver, biliousness, take Liver Granules. Cann Drug Co., leading druggists.

Thyes carried the largest and best stock of wines and liquors in the State and sells better goods for less money than any house in it.

Call at the Reception bar, Commercial Row, for fancy mixed drinks. Jim Kerr is well known in Reno for his ability to please all.

Harry Davis of the Model cigar store has all the latest novelties sent him from the manufacturers, and they are all right, too. Go and see them.

For kidney and bladder diseases and ailments arising from these causes take Kidney Pills. For sale by Cann Drug Co., leading druggists.

Special sale of jewelry, clocks, silver novelties and optical goods at Will G. Doane's for the next thirty days. Don't fail to take advantage of the special bargains.

The Washoe Lunch Counter has another appetizing display of good things in the show window. For a first-class meal, cooked to a turn go to the lunch counter to day.

See Harry McDuffee for ladies' and gentlemen's tailor made suits. Suits from \$20 up; uniforms \$20 up. All work kept repaired free of cost for one year. Residence next to J. J. Becker's house.

Call at The Model and try one of Harry's own nickel cigars called "The Model," the finest smoke on earth for the money. That is the verdict of one all who have tried them and found them first class in every respect.

At "The Model" you can find a fine assortment of stationery, blank books, pencils of all kinds, playing cards, dice, combs, brushes, shaving outfit and a full line of notions always to be found at Harry Davis', "The Model" stationery and cigar store.

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons have a point of telling of it whenever opportunity offers, hoping that it may be of service to others.

We acknowledge the corn. A degree has become a merchantable commodity with us. Probably the parchment is never disposed of by out and out sale but degrees are frequently conferred to men who possess no intellectual attainments but who may be expected to liberally endow their pseudo alma mater.

On second thought we will not admit the charge in its entirety. American Universities are raising their standards more rapidly these recent years than their sister institutions across the seas. While British colleges cling to the dead languages and German universities dream over impracticable philosophies the American halls of learning are sweeping dry, most often eradicating out of the back doors and throwing open their windows

PERHAPS IT MAY EXTEND TO RENO

An Electric Railroad to be Built Through Beckwith Pass.

The Board of Supervisors of Plumas county, Cal., will sell a franchise for an electric railroad to be constructed from Quincy up the north fork of Feather river. The matter will be disposed of at the November meeting of the board.

The road is to be completed in five years. It will be over the route surveyed by Kennedy for the San Francisco & Salt Lake railway in 1893 down through Beckwith pass.

Dame Rumor has it that the Washoe county Commissioners will be asked to take similar action at their next meeting.

The JOURNAL was given a tip that Reno is to be the eastern terminus of this line, the newly incorporated power company to furnish the motive agency.

A line from this city to the summit of Beckwith pass was surveyed this summer.

The road will be largely used for conveying logs from the great Plumas forests to Reno, where they will be made into fruit boxes, lumber, doors and other merchantable material.

Reception to Students.

The Christian Association of the University will hold a reception this evening in honor of the entering class in room 6, Morrill hall, from 7:30 to 10. The students and faculty are cordially invited to be present. The University orchestra will furnish music for the occasion, and a pleasant time is assured to all who attend.

The Cup We Won.

The Carson Athletic Club has received the silver cup that will be presented by them to the Reno Wheatsmen. The trophy is a handsome specimen of the art of the silversmith. After it has been exhibited a few days in the capital city it will be formally presented to the victorious club.

Notice by Nasby.

United States Third-class Postmaster Nasby desires the public to know that the Government building is situated at 12 West Second street, where from 8 a. m. to 6 p. m. he will take pleasure in serving as go-between for writer and writer, lover and lovee, dinner and dusses. Selab!

A New Smelter.

The Electric Mining and Reduction Company has ordered from the Union Iron Works a new smelter to be placed in the Reno Reduction Works. It will be built after the electrical company's designs. It will be installed in two months, and will have a capacity of fifty tons of copper ore daily.

Officers Recommended.

Governor Sadler has recommended Captain W. L. Cox of Reno, Lieutenant H. Burlington of Carson, Lieutenant C. B. Henderson of Elko and Lieutenant R. E. L. Windle of Winnemucca for commissions in the regular army.

New Hall of Learning.

The new schoolhouse at Wadsworth will be completed and ready for occupancy about October 20th.

Ice Cream Parlors.

The Palace Bakery rooms are not only the coolest and most dignified place of its kind in town, but we also assert, without fear of contradiction, that our goods and service are far superior to any.

15¢-15¢

Commercial Row.

Great American Importing Tea Co.

Big Presents Free.

Commercial Row, Reno, Nevada

NOTICE TO SHOW CAUSE.

IN THE DISTRICT COURT OF THE State of Nevada, Second Judicial District, Washoe County. In the matter of the estate of C. C. Powning, deceased.

Notice is hereby given that Clara A. Powning, Administratrix of the estate of C. C. Powning, deceased, having filed in this court a petition for an order to sell all of the real property belonging to the said estate, except the homestead, for the purpose of paying debts, expenses of last sickness, and expenses of administration, the hearing of the same has been fixed by the court for Saturday, the 30th day of September, A. D. 1899, at 10 o'clock A. M. of said day, at the court room, of the above-entitled court, in the town of Reno, county of Washoe, State of Nevada; and all persons interested in the said estate are notified then and there to appear and show cause, why they have, why the said petition should not be granted.

Dated at Reno, Nevada, this 7th day of September, A. D. 1899.

F. B. PORTER, Clerk.

By W. A. Fogg, Deputy Clerk.

I wish to call particular attention to a working shirt I am handling. It is undoubtedly the best working shirt that was ever sold on the Coast for the money. Call and examine the

BRYAN, OUR GUEST

Delivers Two Addresses in Carson and Reno.

AN ADDRESS THE PRINCIPAL THEME

"I Do Not Believe that the Declaration 'If We Had Treated the Filipinos as We of Independence Should not Mean Treated the Cubans We Would Not as Much to Us as to Our Forefathers.' Have Had This Costly and Bloody War."

NEVADA'S greeting to William Jennings Bryan was simply an illustration of how things are done in the Sagebrush State. Mr. Bryan's voice was not the only one that evidenced hard usage last night. Carson, Reno, Virginia and way stations shouted themselves hoarse.

It was an expectant and impatient crowd that assembled in front of the Ormsby House in the capital city awaiting the coming of Bryan and his escorts, who to the number of a dozen or more—State dignitaries, their ladies and several of the untitled—had driven up to the Nevada line to give safe convoy to the capital.

To while the time away the entire population and the stranger within the gates cheered at and for everybody and everything. The Comstock and Nevada State bands blew themselves repeatedly.

Finally distant music was heard. The Indian School band, which was stationed far down the road to salute Nevada's guest, gave notice of his approach. Then, while roar of cannon and clang of bell and shriek of whistle were mingled with shouts from 5,000 throats, the stage dashed up, and a very dusty but very pleasant face to see was beaming acknowledgment.

After a brief rest Mr. Bryan was driven to the Capitol grounds. From the steps of the State House, which were covered with flags and flowers, he addressed the enthusiastic crowd. Governor Sadler introduced Colonel Bryan, who spoke in part as follows:

By way of preface the speaker said that when asked to deliver an address the committee invariably gave one of the following three reasons for requesting a speech: First—All the people in the town voted against your party, and they need conversion. Second—All voted for it, and deserve to be rewarded. Third—The vote was about even, and therefore an address on the principle at issue is an imperative necessity.

Nevada falls in the second class. Mr. Bryan said other things besides self-interest impelled him to speak. It was of less importance to him to be elected to office than to have the principles of justice triumph.

"I want to do my part to make citizenship mean what our fathers planned that it should mean. We live in the greatest nation on earth, and I want to leave it better for my having lived in it. I believe Republican principles are wrong. That party holds the dollar above the man. Republicanism is throwing money and debasing mankind."

While quoting a sentence of Abraham Lincoln's to the effect that the dollar mark should not be engraved upon a party's policy someone in the audience proposed three cheers for Old Abe.

"Yes," said Mr. Bryan, "three cheers for Abe Lincoln! You will find in the next year and a half his sayings more

BRYAN AT RENO.

At the conclusion of Mr. Bryan's address, which with our limited time and space could only be reproduced in a garbled manner, a brief reception was held. In the space of fifteen minutes Mr. Bryan grasped the hands of several thousand people.

The train for Reno was waiting when Mr. Bryan and family were driven to the station. A mighty cheer, or, rather, a succession of them broke forth as the journey toward the Riverside city began.

Mr. Bryan had little opportunity to rest on the train. He was surrounded by his friends and smothered in congratulations.

All Reno was out to welcome the Bryan party. Carriages were in waiting and the visitors were driven to Commercial Row where Mr. Bryan gave a short, earnest talk. He was introduced by Wm. Webster.

The money question was briefly treated and the trust evil was dismissed with a word, both subjects having taken up the greater portion of Mr. Bryan's speech in this city a few days ago. In earnest, convincing manner he told of the dangers that threatened this country should imperialism become its settled policy.

"The nation that less than forty years ago gave of its best life blood in the cause of freedom should not now expect its sons to die in order that 10,000,000 people be made slaves.

"I would not sell the declaration of Independence for all the money that would come from the Philippines in a thousand years."

At the conclusion of his address Mr. Bryan was given an enthusiastic reception and many of the ladies in the audience were presented to the Nebraskan's charming wife. A few minutes later the eastbound train was bearing the guests of Nevada away to their far-off homes and a red-letter day for Western Nevada was become a thing of the past.

RENO ENTERPRISE

Nevada Power & Transportation Company.

ARTICLES OF INCORPORATION

The Project is Likely to Prove a Great Stimulus to Development of Local Resources.

Articles were filed yesterday incorporating the Nevada Power and Transportation Company, under the laws of the State of Nevada. The incorporators are:

George D. Burton, Boston, Mass.; Lester H. Williams, Brookline, Mass.; Warren F. Mills, San Francisco, Cal.; Henry Anderson, Reno, Nevada; Henry Ritter, Reno, Nevada; Willis G. Gaffrey, Reno, Nevada. The capital stock is half a million dollars and consists of 500,000 shares at \$1 each. The stock is non-assessable.

An excerpt from the articles of incorporation read as follows:

"The purposes for which the company is formed are the generation, transmission, distribution and disposal of electric power, reduction of ores, commerce, manufacturing, mining, ditching, storage, distribution and disposal of water, generation and application of mechanical power, generation and utilization of chemical products and the disposal of the same, building, navigation, transportation, farming, banking, hotel and inn-keeping and for such other purposes as may be incidental or auxiliary to or in aid of or assistance of the foregoing specified purposes or either thereof."

The principal place of business will be Reno, Nevada.

The term for which said corporation shall exist is thirty years.

Until officers are regularly elected the incorporators will serve as trustees. As can be seen from the articles of incorporation the new company will have a wide range within which to operate, but the intention of the stockholders is to concentrate their efforts mainly upon mining, reduction of ores and furnishing electric light, heat and power.

George D. Burton gave the JOURNAL the following information:

"We have purchased a tract of ground near the mouth of the canon below Reno. We have completed our surveys and have already a force of men engaged clearing the ground. We will erect our power plant there. A dam will be thrown across the Truckee canon. The fall is ample and the supply of water, which of course includes the drainage from Truckee meadows, is about equal to that of Floriston. We have recorded 80,000 inches.

"We will put in electrical generating machinery of our own design, capable of producing 10,000 horse power. Some of the new features will be double commutators and large increase in current conducting surface.

"Our company will hurry construction work. By early spring we will be able to furnish light, heat and power to whoever needs the same. Our charge will be \$5 per thousand horse power."

Among the stockholders are representatives of the Reno Reduction Works, the Great Western Copper mines and the Crown Prince group of mines. Power for all these will be furnished by the new company.

As the plant will be only 18 miles from Virginia City it is probable that power for the Comstock will also be supplied.

French Tansy Wafers.

The world's famous remedy for painful period and irregularities, regardless of cause, are never failing and safe. The wafers are the married woman's best friend. The only reliable female regulator; imported Paris. Take nothing else but insist on the genuine, red rappers, with our trade mark. La France Drug Co., importers, 306 Turk street, San Francisco.

FOULLY MURDERED

Will Dangberg Killed by a Drunken Indian.

ON THE TRAIL OF THE ASSASSIN

Making Towards Antelope Valley —When He is Caught He May Get Short Shrift.

News reached Reno yesterday of a fatal shooting affray that took place in Carson Valley Thursday. An Indian that worked on the Fred Dangberg ranch in Carson Valley got into an altercation with another Indian, who hailed from Antelope Valley, Cal. The latter Indian was drunk and flourished a gun. Will Dangberg, son of the owner of the ranch, attempted to drive off the intruder, who fired, and Will fell with a bullet in his brain.

A physician was summoned from Gardnerville, but before he arrived the boy was dead.

A posse was quickly gathered and on the trail of the murderer, who fled toward Mono county. If he is overtaken there will be a good work quickly done.

The funeral of the murdered boy will take place in Gardnerville today.

BREVITIES.

The Inter-Mountain Marble Company has been incorporated. Its quarries are in White Pine county.

The Glasgow and Western Mining Company's reduction works at Goldonna will be enlarged to a capacity of 400 tons daily.

Miss Hattie Soper of Fresno, who had been visiting friends in Reno for several days, has gone to Tabo for a brief visit before returning home.

Discovered by Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and two bottles, has absolutely cured. Her name is Mrs. Luther Lutz." Thus writes H. C. Hammick & Co of Shelby N. C. Trial bottles free at S. J. Hodgkinson's Drug Store. Regu lar size 60 cents and \$1.00. Ever bottle guaranteed.

Glorious News.

Comes from Dr. D. B. Cargile of Washita, I. T. He writes: "Four bottles of Electric Bitters have cured Mrs. Brewer of scrofula, which had caused great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent. This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by S. J. Hodgkinson's Druggist Guaranteed.

The Appetite of a Goat.

Is envied by all poor dyspeptics whose Stomach and Liver are out of order. All such should know that Dr. King's New Life Pills, the wonderful Stomach and Liver Remedy, gives a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy. Only 25 cents, at Hodgkinson's drug store.

Among the stockholders are representatives of the Reno Reduction Works, the Great Western Copper mines and the Crown Prince group of mines. Power for all these will be furnished by the new company.

As the plant will be only 18 miles from Virginia City it is probable that power for the Comstock will also be supplied.
